## CHANNEL MIXER

## Mixer

### NEW XAMXB4 Professional Audio Mixer Sound Board Console - Desk System Interface with 4 Channels

## XAMXB4

Loaded with tons of features like:-

- +48 V Phantom power
- 3.5mm microphone interface
- Bluetooth feature
- Live broadcast function on smartphones/ laptop
- Bluetooth connection
- MP3 player function
- High definition headphone output port

## Mixer

**NEW XAMXB4C** Live Home Studio Combo, 4 Channel B4 Live Audio Mixer, Condenser Mic, Headphones for Podcasting, Karaoke, Mobile/PC Live Streaming, Studio recording.

### XAMXB4C

Loaded with tons of features like:-

- XAMXB4 4 channel Audio Mixer with 48v Phantom Power, Bluetooth connectivity for background music, USB/instrument input, direct mobile live streaming port and cable, 3.5mm Mic and Headphone In, special delay and repeat effects, PC/Mobile recording and live streaming
- XAMC01 Professional Unidirectional Condenser Microphone with a frequency response of 30Hz-18KHz and sensitivity of  $-45\text{dB} \pm 2\text{Db}$  for capturing studio-quality audio with no noise. Sturdy shock mount along with Pop Filter included in-box to reduce vibration noise to capture high-quality audio. Studio 3.5mm Headphones for monitoring the audio recordings, background music volume level etc, is included with the kit.
- Adjustable Boom Arm stand so that the mic can be mounted wherever. The stand can be attached to any table, shelf etc so that the microphone can be attached as per the requirement of the user.
- This all-in-one kit is the perfect pick for any aspiring musicians, singers, YouTubers, podcasters etc who are looking to set up their own home recording setup. This kit is extremely easy to setup that has everything you need to record studio-quality audio.
- What's in the box – XAMXB4 Audio Mixer, XAC01 Condenser Microphone, 3.5mm Headphone, 3.5mm TRRS Live Out Cable, 5v Charging/Computer Cable and Adapter, XLR Cable, Adjustable Boom Arm Stand, Shock Mount and Pop Filter
- Note:- B4 mixer is mainly used for the live streaming, it can not record the multiple tracks at once. For that, an audio interface is the only way to go. Mixer takes multiple incoming signals and mixes them together thus resulting in one stereo track.

## Mixer

**NEW** XAMXGA4 Professional Audio Mixer Sound Board Console - Desk System Interface with 4 Channels

### XAMXGA4

Loaded with tons of features like:-

- 2 mono + 2 stereo channels input
- 16 DSP effects

### XA-DIG-MX-400

#### Ultra Low Noise 8-Channel Line Mixer

Type: Analog Channels: 8-channel Inputs - Line: 8 x 1/4" TRS; Outputs - Main: 2 x 1/4" TRS; Dimension (W x D x H): 148 mm x 85 mm x 65 mm; Weight (without packing): 0.5 kg

#### Ultra low noise 4-channel line mixer

Type: Analog Channels: 4-channel Inputs - Line: 4 x 1/4" TRS; Outputs - Main: 4 x 1/4" TRS; Dimension (W x D x H): 104 mm x 56 mm x 50 mm; Weight (without packing): 0.2 kg

## DI BOX

Home studio, live studio, recording studio

### XA-DIG-DI1

1 Channel All Steel Chassis; Input: 1/4" Connector Balanced Output: Male XLR Connector; Instrument Input: 50K Unbalanced TS Jack Parallel Link Out: 50K Unbalanced TS Jack ATT Switch: Input Attenuation, Switchable (0dB, -20dB, -40dB) Ground: When engaged, the ground from the Chassis Detaches from XLR Jack; Output: 1/4" ParaOut (For Passing Input Signal Through to Stage Amp or Monitor System)

## DI BOX

Home studio, live studio, recording studio

### XA-DIG-DI2

2 Channel All Steel Chassis Input: 1/4" Connector Balanced Output: Male XLR Connector Instrument Input: 50K Unbalanced TS Jack Parallel Link Out: 50K Unbalanced TS Jack ATT Switch: Input Attenuation, Switchable (0dB, -20dB, -40dB) Ground: When engaged, the ground from the Chasis Detaches from XLR Jack Output: 1/4" ParaOut (For Passing Input Signal Through to Stage Amp or Monitor System)

## DI BOX

Home studio, live studio, recording studio

### XA-DIG-DI20

Switch eliminates typical ground loop problems input 2 usable as channel 1 Link output (Additional to XLR Output) TRS and gold-plated XLR Connectors Ultra-rugged, road-suitable metal case. 2 Channel Converts 2 independent unbalanced 1/4" TRS Line inputs into 2 balanced XLR outputs Additional split mode (channel 1 assigns signal both XLR outputs) Ultra-flat frequency response due to servo-balanced operation Internal battery automatically shuts off when phantom power is applied Allow direct connection to speaker outputs with up to 3,000 watts ground lifts.

## BLUETOOTH SPEAKER

12W Wireless Waterproof Bluetooth Speaker with TF Card Reader and mic for Calls.

XA-BTS-GY

XA-BTS-RD

XA-BTS-YL

- Connectivity : Bluetooth connection provides fast and hand free usage, range from 40-50mts. One can also connect by way of AUX cable provided and there is also a TF card reader provided. Walls and construction materials can affect reception at times.
- Waterproof: Certifies wit IP95, the speaker is waterproof/ dustproof and shockproof, can be put in water for more than 3 hrs. It will pump up your mood for all those long showers and lets you have an amazing time while hiking, kayaking, trekking and at those rocking pool parties.
- Inbuilt mic: built in mic offer hands free calling, when speaker connect with phone, device support announce incoming phone No. and redial the last incoming call. Play time : With a play time of 5-12hrs, be sure to last a long time with one full charge.

## FABRIC MATERIAL SPEAKERS

Portable Wireless Fabric Bluetooth Speaker with mic and FM Radio.

XA-BTS-F6BL

XA-BTS-F6BR

Support: Bluetooth, TF card, Line in, TWS, FMradio Support wireless control through wireless device

Material: Dacron fabric + ABS with rubber oil; Battery can support play time: 5-12 hours

Speaker size: 205\*205\*57MM; Color: Blue and Brown; Support Hand-free (with MIC) Output/RMS: 6W\*2 Built in 4000mA battery

XA-BTS-F1BK

XA-BTS -B5BK

Support: Bluetooth, TWS Bluetooth function: support 2 speakers wireless connected, true stereo; Material: Aluminium Alloy + ABS+ Silica gel + metal mesh; Battery can support play time: 2-4 hours; Speaker size:  $\Phi 51.0 \times 46.5$ mm; Color: Black; Support Hand-free (with MIC); Output/RMS: 3W\*2

Support: Bluetooth, Line in, MIC, TWS; Support 1 speaker wireless connected with 2 phones; Material: PC + ABS + Metal speaker mesh; Battery can support play time: 90mins -6hours; Speaker size: 58\*58\*58MM; Color: Black; Support Hand-free (with MIC); Output/RMS: 4W; Built in 500mA battery

## XA-BTS- A10SL

- Support: Bluetooth, TF card, USB, FM Radio, Line in Alarm clock
- Temperature with degree Celsius/ Fahrenheit degree.
- Material: ABS+ PVC + Aluminum alloy plate
- There are six nature sounds to help us to sleep
- LED display support working time up to 42 hours
- Speaker size: 194\*80\*58MM
- Color: Blue and Brown
- Support Hand-free (with MIC)
- Output/RMS: 3W\*2
- Built in 2000mA battery

**USB AUDIO INTERFACE**

## AUDIO INTERFACE- STUDIO 2

Home studio, music studio, live recording

### XA-DIG-ST2

### XA-DIG-ST2-SL

- If you're looking for a simple, affordable, and effective way to record music on your Mac or Windows PC, then check out our Audio Interface Studio 2. This audio interface gives you everything you need in one package.
- Equipped with high quality preamps for mic & Instruments and two dedicated TRS balanced outputs. The rich feature-set, which also boasts a powerful Main Output level control for the Direct Monitoring of your session. Plus the stereo/mono switch makes the XA-DIG-ST2 the best, and most-portable recording interface in its class!
- The XA-DIG-ST2 provides you with 24-bit/192kHz sampling Frequency for an amazing quality recording which your music deserves.
- This easy-to-use interface includes a line-in instrument switch with 48V phantom power. You can gain total control of the sound through the control knob for stereo headphone output.

- 2 XLR/TRS Hybrid Interface.
- High quality Preamps for Mic & Instruments.
- Two TRS Balanced Outputs
- Gain Control Knob for Stereo Headphone output
- Line-in Instrument Switch
- 48V Phantom Power.
- Direct Monitor Control
- Main Output level control knob
- 24-bit/192kHz sampling Frequency.
- High-Speed USB 2.0 power Supply.
- Compatible with Mac and PC.

Package includes :USB audio interface , USB cable, CS with driver software

## CONDENSER MICROPHONE (BK) + STUDIO 2 (BK)

XA-C01BK-ST2BK

- Open your door to the world of high level audio quality performance with Xtreme Acoustics- highly premium and stylish Studio 2 Audio Interface and all metal- built Condenser Microphone bundle.
- Studio- 2 audio interface:- The stereo/mono switch makes the XA-DIG-ST2 the best, and most-portable recording interface in its class! The XA-DIG-ST2 provides you with a 24-bit/48kHz sampling frequency for an amazing quality recording which your music deserves. Just plug in a microphone, instrument or line-level sources to the combination 2 XLR/TRS hybrid interface for the spectacular studio sound finish.
- Condenser Microphone is an XLR interface that you can connect to Studio- 2 audio interface. It is ideal for recording, singing, streaming, podcasting, home studio, voice-overs and professional studio recording.
